Hex #A43D2D

A photograph of a woman with dark hair, wearing a black beret, standing in front of a wall. The wall features a large, faint, light-colored mural of a person's head, possibly a self-portrait. To the left, a portion of a chandelier is visible, casting a warm glow. A single pendant light hangs from the ceiling above the mural.

A close-up photograph showing the lower half of a person's face and their dark t-shirt. They are standing next to a large, polished metal bell. The bell has a prominent clapper visible at the top. The background is dark and out of focus.

(Open Sans 18 pt)

A black and white photograph showing a close-up of a dark, reflective surface, possibly a metal bowl or container, with a bright, glowing light source visible at the bottom center.

This image features a dense grid of horizontal white lines on a black background. The lines are evenly spaced at the top and bottom edges of the frame. As they move towards the center, they converge and taper, creating a perspective effect that draws the eye towards the bottom-left corner. The overall composition is minimalist and geometric.
